Clinical Global Impressions (CGI) Scales

Instructions: Circle the appropriate number after each of the following 2 items.

Complete Item 1--SEVERITY OF ILLNESS at the screening, baseline, and subsequent assessments. Item 2 will be omitted at the screening and baseline assessment by marking 0 -- "Not Assessed".

1. SEVERITY OF ILLNESS
   Considering your total clinical experience with this particular population, how mentally ill is the patient at this time?

   1 = Normal, not at all ill  5 = Markedly ill
   2 = Borderline ill          6 = Severely ill
   3 = Mildly ill             7 = Among the most extremely ill patients
   4 = Moderately ill

2. GLOBAL IMPROVEMENT
   Rate total improvement, whether or not, in your judgment, it is due entirely to drug treatment.

   Compared to the patient’s condition on study day –1, how much has the patient changed?

   0 = Not assessed          4 = No change
   1 = Very much improved    5 = Minimally worse
   2 = Much improved         6 = Much worse
   3 = Minimally improved    7 = Very much worse
